NAME : \_\_\_\_\_

There is no need to be afraid of bees. The most important thing to know is that you shouldn't be scared of bees.

To them we're just big boring giants who walk around their world. Unless you threaten them, bees will not attack humans. They won't chase after you if you leave them alone.

If a bee comes close to you, attracted by your bright colourful T-shirt, or the nice smell from your shampoo. A bees favourite colour is purple. The best thing you can do is just sit still and it will fly off when it realises you're not a flower!
